Zohaib Syed

AI & Software Engineering Student | Diploma in Business Management | Skilled in Ops, Accounting, and Automation | Redpath Sugar Ltd

Toronto, Ontario, Canada

Summary

I'm currently working at Redpath Sugar Ltd in Toronto, with hands-on experience in industrial operations and logistics.

I earned a Business Management Diploma from Oxford College, graduating with a 95% average. There, I built a solid foundation in HR, marketing, business law, small business management, planning, bookkeeping, financial accounting, and using tools like Microsoft Excel, QuickBooks, and MS Access to manage data and workflows.

I'm known for being a dependable team player with strong problem-solving, communication, and leadership skills. I enjoy finding smart, simple ways to solve problems and get work done efficiently.

Now, I'm upgrading my technical skills by studying Artificial Intelligence – Software Engineering Technology at Centennial College. My goal is to combine what I've learned in business and operations with tech, so I can help build smarter systems that work in the real world.

Experience

Redpath Sugar Ltd

Bulk Loader

November 2019 - Present (7 years)
